

Blueprint Assignment

Today, you are going to create a blueprint of an imaginary school. You must include a classroom for every class that you currently have, in addition to a gym, a library, and a cafeteria. Label each classroom in French (la salle de classe de français, etc.). Additional locations you may include/label are the office (le bureau), the bathroom (les toilettes), and the hallway (le couloir).

Be creative with the design/layout of your building. Make your drawing neat!
